Visit "[All I Ever Needed](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Chorus

Coming down from a lonely heart coming down dont  
want to stop youre all I ever needed. Coming down in a  
brand new way coming down I want to say youre all I  
ever needed now.

Now I feel that I should travel far and wide in a search  
for someone normal, no more lies. I think I have woken  
up Ill take every second lost I feel I am chasing love.

Chorus

Coming down from a lonely heart coming down dont  
want to stop youre all I ever needed. Coming down in a  
brand new way coming down I want to say youre all I  
ever needed now.

Giving up was lost the second she came in there is  
more to life than questions left to fill I think I have  
woken up Ill take every second lost I feel we are  
chasing love.

Chorus

Coming down from a lonely heart coming down dont  
want to stop youre all I ever needed. Coming down in a  
brand new way coming down I want to say youre all I  
ever needed now.

See how this could be my last memory theres more to  
life than this more to life than this (2X)

Chorus

Coming down from a lonely heart coming down dont  
want to stop youre all I ever needed. Coming down in a  
brand new way coming down I want to say youre all I  
ever needed now
