Visit "[Fragile Instincts](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Fragile instincts turn my head  
grab my eyes and paint them red,  
there's no one else in here but you  
common baby come unglued,  
There's something underneath my skin  
scratching at me from within  
common women don't you lie  
you want it to and so do I.

There's just one problem shame on me  
a girl who bonds with no release,  
I see a way around her now  
just the morals hold me down,  
I know I love her but for now,  
my fragile instincts are coming out  
common women don't you lie  
you want it to and so do I.

(Chorus)

Running with a black heart never gonna wanna  
Running with the answers what am I supposed to say  
(2x)

Conscious mistakes point of views

scatter about cloud your view  
the time is here the questions gone  
just take your heart and run.

(Chorus)

Running with a black heart never gonna wanna  
Running with the answers what am I supposed to say  
(2x)

I'm sick of love I'm sick of lies  
I think it's time I find  
another way around this messed up little life of mine,  
(2x)  
You don't know me babe.

Told her in the end,  
"You're still a liar"

oh but now were friends,  
"Your still a liar"  
I could just pretend  
"Your still a liar" (2x)

(Chorus)  
Running with a black heart never gonna wanna  
Running with the answers what am I supposed to say  
(2x)
