=====

(lyrics: Hellid,

music: Hellid)

Before my eyes - lies

nothing but lies

I cannot believe the scenes

taking place beneath our skies

It makes me wanna do my time

in a song or on the silver-screen

humanity is the biggest cancer

ever to be seen

Before my eyes - lies

civilisation

ancient and wicked

destruction in creation

No matter how low you are

there's always someone to look down upon

and it goes

on and on

Emotionless - obscene

but a human life don't mean

anything to me

it's merely a seed of insanity
