Flexing muscles
All pumped up
I'm showing off
Testosterone

Male masculine icon
Athletic godlike clone

Oiled skin shinning
I enjoy what I see
Greek god superman
Full of testosterone

Male masculine icon
Athletic godlike clone

My system is full of steroids

I don't care if it fucks with my head
Growing harder as I watch myself
Jerking off while flexing

My body is perfect and pure strength
Blood pumping hard in my veins
How easy it could be
To smash your head in with a single blow

I'm gods gift to women
The ideal man
I'm building perfection
You envy the way I am
