(lyrics: Hellid,

music: Hellid)

I've got a 24-lane highway
going straight thru my head
a peace of mind like a brainstorm
and thoughts that knocks me dead
I've got sympathy for the devil
and demon is in my vein
I'm organized chaos
but don't call me stupid I'm insane
At my worst I'm at my best
wide awake but let sanity rest
I'm full of hell

all kinds of hell

I've got a heart like a graveyard
they're dying to get in
I'm from alot of different places
and I'm full of hell and sin
I'm offended by human nature
was told the truth by someone who lied
there are times when not being human
would be a source of inner pride
In my heart and deep within
I've got it's fire under my skin
