When all you have's a hammer
All you see is nails
When all you have's a hammer
And when all else fails
Hit the nails!

When all you have's a buzz-saw
All you see is wood
When all you have's a buzz-saw
You just wish you could
Yeah, you would!

When all you have's a lighter

All you see's a fuse
And when you see it burning
You ain't got nothing to lose!

When all you have's a shovel
All you see is graves
When all you have's a shovel
In hollow pits they will be saved
Light the fuse!
