(Lyrics by Andersson; Music by Andersson/Cederlund)

My skin is dripping from blood  
for that moment I sighed in relief  
but I was not just going to be dying  
I was going to bleed like sinners bleed  
Paralyzed by the fear  
for something I could not believe  
a paradise to some  
but hell to suckers like me  
unspeakable sights I behold  
they're freezing and teasing my mind  
terrorized by the essence from beyond  
the dimensions of another kind  
Moving lights  
passes nihility in which I fell

descent into fright  
when I was slowly send down to hell  
Scarlet black all I see  
the void caught up with my eyes the horrid wait suffers  
me  
please set me free I just want to die  
(Lead: Cederlund)  
Palace of confusion  
castle of pain  
beneath these walls of power  
I'm lost in hells Domain  
I am scattered in my own blood  
I am losing all my beliefs  
but I was not just going to be dying  
I am bleeding like sinners bleed
