"Thy Kingdom Koma"

Far from grace
At the end of a delusion race
Big black mass, waste
Every bit of dignity
Successfully erased

Now let the kingdom come
And it will come undone
Dispatch another bastard son
Eliminated like the last one

Atheistic pleasure dome
Moral black hole
Perverted freedom
Obliterated innocence
Defloration of the soul

You want it, fan the flames
You need it, fan the flames
You have it, fan the flames

This is the church of the constant bliss
Ministry of nemesis
Sacrifice and kill in peace
Perverted freedom reveries

In a godforsaken whirlpool of sin
Ecstasy of suffering
Where bastard sons of godless whores
Sail the seas of no remorse

Atheistic pleasure dome
Moral black hole
Perverted freedom
Obliterated innocence
Defloration of the soul

Rape, murder
Chill to succeed
Thy kingdom coma
Endless orgy
For the god of guilt and greed

Dark insanity, moral flexibility
To arise, to appease
As a slave, delusional, insane

Atheistic pleasure dome
Moral black hole
Perverted freedom
Obliterated innocence
Defloration of the soul

Rape, murder
And sow the seed
Thy kingdom coma
Endless orgy
Of sexual gratification and greed

Fan the flames, go, go, go
You're reaping what you sow
Fan the flames, go, go, go
You're reaping what you sow
Fan the flames, go, go, go
You're reaping what you sow
