Closer (My Love)

Closer my love  
Veil me with your warmth  
Oh how afraid we are  
I hold my breath  
I try to hide my pain  
Here in your embrace  
So this pain would be gone

This time I want you to  
Dry all your tears as we make...

Love...for the last time  
Replace your heart with mine...  
Deep inside  
Please stay with me through the night

I rinse my face  
With your tears  
Too many tears for the end  
Darling please don't you cry  
You hold your breath  
You try to hide your pain  
Here in my embrace  
So this pain would be gone

Fly without sorrow  
In my dreams we meet again  
For you I live I would die for  
You'll stay deep inside my heart
