Hold on, don't throw yourself away  
Honey nothing's forever  
Hold on, don't blow yourself away  
Honey nothing's forever

Looking for love where there is no emotion  
Where do we go from here?  
Looking for air at the floor of the ocean  
An ocean of lonely tears  
ooooh another time  
Another place  
My dear dream

Well ive just got back from a run and i'm feeling alright  
Well there aint much time 'til i get that chilled gotta  
make it  
through the night

I stand up  
I sit down  
In my size I start to drown  
There is only one thing on my mind

I hear love  
I get down  
There's a new sensation  
That i've found, Yeah  
I hear love  
I get down  
There's a new sensation  
Going round, Yeah

Looking for love where there is no emotion  
Where do we go from here?  
Looking for air at the floor of the ocean  
An ocean of lonely tears  
ooooh another time  
Another place  
My dear dream
