Lonely, I feel so lonely I could die  
If only I weren't so lonely, I would cry  
The wrong's turn to right, the darkness is my light  
With my eyes bright open wide

There's something in the air  
And it smells like suicide, yeah

Hopeless, I feel so hopeless in my head  
I'm hopeless, rope, cope and dopeless  
I'm in the red, that's what I said  
My days are breaking up and I don't like waking up  
'Cause I feel so very tired

There's something in the air  
And it smells like suicide, yeah
