[Lumidee]

I'm a chick that's making moves  
nothing you can say throw me off my groove  
keep it funky fresh  
like nice and smooth  
I have my cake and eat it too

So, what you wanna do?  
Blowin' up my phone cuz you in that mood  
tell you what it is cuz I'm so true  
better run run run yeah make it soon

[Enur]

My bonfire burning  
now you are the light of me  
ya'll better hurry  
baby run run run  
my bonfire burning  
now you oughta come  
before its come betta hurry  
baby run run run

I know that love never given up  
and you just wanna give it up  
I need your love to love  
to love I need to be loved  
without you man I'm freezing up  
well baby light me up  
I melt to drop for drop  
when you give me love for love

I'm on fire baby  
when its hot out  
I'm on my way  
now that you have lift me  
baby don't forget me  
every night I pray  
love is gonna come my way  
now that you have lift me  
baby don't forget me

My bonfire burning  
now you are the light of me  
ya'll better hurry  
baby run run run  
my bonfire burning  
now you oughta come  
before its come betta hurry  
baby run run run(X2)

I'm waiting for you everyday  
you never seem to come my way  
I gave you love for love  
to get you gotta give some  
I'm not saying love don't suck  
but if you steer it up  
I'll be melting drop for drop  
when you give me love for love

My bonfire burning  
now you are the light of me  
ya'll better hurry  
baby run run run  
my bonfire burning  
now you oughta come  
before its come betta hurry  
baby run run run(X2)

looking at the chick you wanna be  
rocking with the dudes you wanna see
