English:

Listen to my heart  
Sorrowful, alas  
I am lost without you  
And your wife  
The great love in your life  
She guided me  
Be with me always  
Day and night

Chorus:  
Lamenting the great loneliness  
The sorrowful tears  
Asleep [1] in the quiet green grave  
In a deep peace  
There was happiness  
But that departed  
It was he who followed you  
Your husband  
The great love in your life  
He guided me  
Be with me always  
Day and night

Chorus

I think of the day  
That you were beside me  
Telling a story [2]  
Of the old life [3]  
I remember the day  
Without want and without gloom  
Be with me always  
Day and night
