"You Saw Me"

Visit "[You Saw Me](#)" on MotoLyrics.com

Through every step through every heart felt plea
You witnessed every single part of me
No where to hide no room for secrecy
You captured what I longed to see
You saw me

Chorus:

You saw me like I never did
You loved me no matter what I said
You always saw the best in me.

You saw me'right through me

The sun is setting on this tragedy
The warmth of you is all I'll ever need
You took the shattered life I tried to lead
And helped me find stability
You saw me.

You found me, you loved me, You saw me.
