"One Of A Kind"

Visit "[One Of A Kind](#)" on MotoLyrics.com

Take it easy
take it slowly
take one day at the time

Wake up lonely
wake up slowly
wake up, never mind

You deserve a much better view
Use you elbows pull your self through
You deserve every compliment
try to keep them though you can't

Let the wind blow
let time show
let loos, let him go

Keep good moments
keep trust in romance
keep on and you will know

And you deserve a much better view
use you elbows pull yourself through
You deserve every compliment
try to keep them though you can't

You deserve a much better view
use your elbows pull yourself through
You deserve every compliment
try to keep them though you can't

Take it easy
take it slowly
take one day at the time

You are one of a kind
