Try to leave behind
All the pictures
In your mind
And rest your head on me
Well fight this
You'll see what it means to feel free
Like a secret kept forever
You are dying for some air
Take a deep breath
Cause you'll never think of him
When im near

Its easy to forgive
But not that easy to forget
You gave him far too much
I hope he realizes
What he just lost
Like a secret kept forever
You are dying for some air
Take a deep breath
Cause you'll never think of him
When im near
