It's I don't know

It's what you're called

It's words escape me

Oh, it's hang it all

It's the kiss that defies every dictionary

Tell ya this, though

Whatever it is it's very

So darling say

It's understood

That when you kiss this way

It's knock on wood

It's do it again

It's the heck with it anyhow

It's the cat's meow

And it's too good to talk about now

[guitar solo]

It's I don't know

It's what you're called

It's words escape me

Oh, it's hang it all

It's the kiss that defies every dictionary

Tell ya this, though
Whatever it is it's very
So darling say
It's understood
That when you kiss this way
It's knock on wood
It's do it again
It's the heck with it anyhow
It's the cat's meow
And it's too good to talk about
Wee it's wow
It's too good to talk about
Holy cow
Too good to talk about now
It's the cat's meow
And it's too good to talk about
It's wee, it's wow
It's too good to talk about
Holy cow
It's too good to talk about now
