Quiet nights and quiet stars, quiet chords from my  
guitar  
Floating on the silence that surrounds us  
Quiet thoughts and quiet dreams, quiet walks by quiet  
streams  
Climbing hills where lovers go to watch the world below  
together

We will live eternally in this mood of reverie  
Away from all the earthly cares around us  
My world was dull each minute until I found you in it  
And all at once the happiness I knew  
Became these quiet nights of loving you

Quiet thoughts and quiet dreams, quiet walks by quiet  
streams  
Climbing hills where lovers go to watch the world below  
together

We will live eternally in this mood of reverie  
Away from all the earthly cares around us  
My world was dull each minute until I found you in it  
And all at once the happiness I knew  
Became these quiet nights of loving you  
Became these quiet nights of loving you
