Tonight we're gonna have a social experiment
And here we... go

Nothing's wrong

Long time, no see, I'm doing fine, yeah, thank you
That's nice, you look great, don't wanna know what I go
through?
Hard times, much pain, you will never know, no one
ever does
I stay cool, will act tough, I'll smile along for you 'cause

Nothing's wrong....except for me falling apart
Nothing's wrong....it's tearing pieces of my heart
Nothing's wrong....except for me falling apart
Nothing's wrong....but I fell down right from the start

Let's laugh, let's drink, let's just pretend that I feel
good
But at night, it gets to me, hits me like a piece of
hardwood
It's wrong, I feel fucked, can't play the clown no more,
no
I quit, find help, I'm getting out of my own freak show

Nothing's wrong....except for me falling apart
Nothing's wrong....it's tearing pieces of my heart
Nothing's wrong....except for me falling apart
Nothing's wrong....but I fell down right from the start

Big boy is calling out for help
Big boy is calling out for help
Join my journey
Come on, take a ride
Walk with me through the valley of fear

Nothing's wrong, I'm doing fine
(Big boy is calling out for help)
Nothing's wrong, nothing is....
