Resign To Surrender A New Age Dawns Pt. IV

Can't move an inch  
But for the act to  
Leave fingerprints

Freedom farewell  
Look in the lens  
Answer the questions  
Are you a threat?  
Nec plus ultra  
After all the grabbing, it's time to bite the dust  
Leave behind the breaches of my trust  
Cleaning up the mess is up to us  
Non plus ultra  
Now that all hands are tied  
We're panic stricken  
Wealth out of sight  
Demolition, the damaged pride

The price of ambition  
Nec plus ultra  
The current system leads to profit seeking deeds  
Leave behind the traces of our blood  
Now the course for change is up to us  
Non plus ultra

After all the grabbing  
It's time to bite the dust  
Leave behind the breaches of my trust  
Cleaning up the mess is up to us

Access is now denied  
We're panic stricken  
Wealth out of sight  
Intuition, forgotten guide  
The price of suppression  
Terre eos vi  
Augearis  
Perde eos vi  
Nobis imperium  
Can't move an inch

But for the act to  
Leave fingerprints

Freedom farewell  
Look in the lens  
Answer the questions  
Will you behave as required?  
When we think the end is here  
With nearly all faith gone  
There is hope along the way  
And there a new age dawns

None are more hopelessly enslaved than those  
who falsely believe that they are free  
[Goethe]

Nobis victoria  
Non plus ultra

Now that all hands are tied  
We're panic stricken  
Wealth out of sight  
Demolition, the damaged pride  
The Price of Ambition

Access is now denied  
We're panic stricken  
Wealth out of sight  
Intuition, forgotten guide  
The price of suppression

Can't move an inch  
But for the act to  
Leave fingerprints  
Freedom Farewell  
Look in the lens  
Answer the questions  
Will you behave as required?

When we think the end is here  
With nearly all faith gone  
There is hope along the way  
And there a new age dawns

Chasing our addictions we're stunting our growth  
Once we get rid of this ballast we'll be able to  
Restore the balance and distribute our wealth
