A place we tried to search a thousand times  
To finally feel as if  
Forever wasn't ever long enough  
I will refrain

I feel a passion watching over me  
To shed this pain in me  
This evolution will empower me  
Now truth begins

And you will not find me  
(I am safe in here)  
I'm where I want to be

It's a place where your wish will be granted  
Come, you'll see I'm right  
It's a force that will linger within you  
Dark as day is night

It's a place where your dreams will be sancted  
And will always be  
It's a force that will send what's within you  
Just you wait and see

Take one step closer to the borderline  
When night is taken back  
(Taken back)  
This mortal coil is gone and left behind  
On holy soil

And you will not find me  
(I am safe in here)  
I'm where I want to be

It's a place where your wish will be granted  
Come, you'll see I'm right  
It's a force that will linger within you  
Dark as day is night

It's a place where your dreams will be sancted  
And will always be  
It's a force that will send what's within you

Just you wait and see

You will not find me  
I am safe in here  
I am where I want to be  
So leave me now in peace

And you will not find me  
(I am safe in here)  
I'm where I want to be

It's a place where your wish will be granted  
Come, you'll see I'm right  
It's a force that will linger within you  
Dark as day is night

It's a place where your dreams will be sancted  
And will always be  
It's a force that will send what's within you  
Just you wait and see

It's a place where your wish will be granted  
Come, you'll see I'm right  
It's a force that will linger within you  
Dark as day is night

It's a place where your dreams will be sancted  
And will always be  
It's a force that will send what's within you  
Just you wait and see
