"Designated Driver"

Visit "[Designated Driver](#)" on MotoLyrics.com

Chorus:

Johnny needs a designated driver

A driver

Well we'll just let him go

Just let him go

Verse

So how'd you'd like that cold back of a wagon

You're pullin splinters out of your skin

Well I saw one officer's revenge

Through our justice system

A cruel punishment DUI

Chorus

So how'd you like that cold back of a mountain

You find yourself a new kind of bottle in the Basement

They're gonna follow you

Is it fun to drink?

If no one gets hurt?

Where asking questions is a common place

Well take another sip if you dare

And take another rip if you dare

Cause there's so many police running round the streets

tonight

Chorus
