Luminous, a reverie disguised
Fleeting winds sear upon the horizon
Prophecies remain obscured,
Pitiless and torn by tranquility
Recollections elicit these fears,
Subsided by the vigilance of sorcery
Challenging, yet unabridged,
Enthralled by this manifest of elegance
Dreams of solemn winds embrace
Deny the sun to soar, repent prevalence
Mystic wisdom bounds in passive glory
Ravish nightfall, accede eternal bliss
Attain euphonious winds, archaic and vigilant
Dreams of solemn winds embrace
Transcending to a serene abyss,
A gateway to the paramount of suffering
Eminating with a sense of wonder,
Transformed to the conqueror of nightmares
Thy will is a terminus of vengeance,
Obliterating those engulfed in virtue
Paralyze the impeccable with wizardry,
Haggard minds will comprehend my victory
Expel convictions of the sculpted lie,
Invoked by the powers of darkness
Fate enraptures in this moonlit symphony,
Bewitching eyes conjured in nocturnal deity
Dreams of solemn winds embrace,
A symbol of energy restored
Nocturnal, a deity shall arise!
