I was adored once...  
I shall not forget the indulgence...  
Deep in my army I feed the plagues within...  
This greedy field... An exhaustion...

Ooh... Sharing the millions of dead wishes...  
Into deep the ground will make a sigh...  
Sharing the millions of dead wishes...  
Into deep the ground will make a sigh...  
Cold and the fire are shedding themselves  
A harmony... Written on a cerement...

An expected damnation...  
In rapture...

I was adored once...  
I shall not forget the indulgence...  
Deep in my army I feed the plagues within...  
This greedy field... An exhaustion...
