Unleash the cholera on humanity
Manipulate the truth, spread insanity
Giving the last shining to sun, before the end,
Days of eternal darkness...

This is the war to break all the human chain
Awaken beast lying deep in your brain
Final solution: Mass execution
Sworn to destroy all your ways

One step into the fire... Fire!

Declaring anti human manifest

War, War, War!

War, War, War... The truth is unveiled, time to suffer
more

War, War, War... The worst is coming next, will you
stand for?

Immortality...
