[Lyrics: LoSicco'96]

Once upon a star-less night  
Within my sky fell rays of light  
(Who) chanced upon a path unknown  
To all the path ends here.  
To approach me in my land  
Is to release the strongest dam  
Behind which oceans once duressed  
Now flow to Ever's end  
I have become  
What is now and ever shall be  
The whisper of the timorous  
The Scarlet hue of the blood  
Once upon an ancient time  
When still I searched for truth  
I chanced to view a mortal's death  
Upon a cross a of wood  
Now as crest is to wave  
So time and time has passed:  
And brought an end to my quest  
Within this foreign land  
Tu-mul-tu-ous  
Years within the light  
Are now dispatched with swollen eyes  
And gaze towards blackened bliss  
Be for me and only me:All that can forever be  
A midnight cloak in ravens' black:To steal the jewels of  
night  
The lens through which as willed to be:The scenes of  
all Infinity  
Scroll through Chapter, line, and verse:And falls upon  
the page  
(No More) Traveling through Space and Time  
The spectrum collect lays at rest  
Stasis again now restored  
The day that the light was destroyed

Be for me and only me:All that can forever be  
A midnight cloak in ravens' black:To steal the jewels of  
night

Again to face the marvelous mysteries  
The Keys of Time are mine to employ  
To view again in triumph of blasphemy  
That which cannot shine anymore  
Fetid Pallid Death  
Cast down from the red mountain cliffs  
Cosmic earth and clay  
Upon your mother terra now lay  
Ancient puissant hands  
Now reach towards the heavens for all that I can  
(The) Final mendacity  
The End - a boundless lust may never see  
[Hunger:] For the fruits of time  
[Ethereal:] Ardor divine  
[Clarity:] In a now darkened sky  
The jewels of the night are mine!  
I have become  
What is now and ever shall be  
The whisper of the timorous  
The Scarlet hue of the blood  
Tu-mul-tu-ous  
Years within the light  
Are now dispatched with swollen eyes  
And gaze towards blackened bliss  
The spectrum collect lays at rest  
Stasis again now restored  
The day that the light was destroyed!
