All decisions are made, all the games have been
played
Then I found in myself, on the verge of the fall

They stabbed to the shove
Raise yourself from non-existing serenity
They dared to the raid
Though I stand still

These fists try to scatter
My conclusion as the end
Or the begining inside, a little deep

Feelings I can't explain
When you're inside
And you will find out how we used to be

The paranoid begins
Why do you scare?
I inside I, do you regret?

Your fears; social disaster
Your rules; I have my own
Beliefs; I have my own

They stabbed to the shove left your burden as it has
never been
They dared to the raid
Though I stand still

Feelings I can't explain
When you're inside
And you will find out how we used to be

The paranoid begins
Why do you hasitate?
I inside I, do you regret?

But now the game is over!

These wounds will heal
My arise as the end

Or just the beginning inside
As my vengeance sees...

Feelings I can't explain
When you're inside
And you will find out how we used to be
