In absence of harvest we are waiting  
Smoking the torments of lifes  
Existence the mistress god  
Spins with ashes through the time

Divine  
See the graceless smile  
Taste the betray with dead

The shadows clothed by darkness  
Vagaence buried their dead  
Existence the mistress god  
Spins with ashes through the time

Divine  
See the graceless smile  
Taste the betray with dead

By the tides of mortality  
How hard I tried the humanity  
Impresing me in this dead body  
The killing will last 'till dead

Betrayed the fragment of everlasting will die

A soul to soul  
A heart to heart  
Making graves to keep me alive  
Oh I had one wish  
Just let me die

Betrayed the fragment of everlasting has died

Thus passes the sorrow  
Stared the night  
Nail the god to crucify  
The shame is under her life  
Close your eyes words left to lie  
Before her eyes  
I shall die

Divine

See the graceless smile  
Taste the betray with dead

By the tides of mortality  
How hard I tried the humanity  
Impresing me in this dead body  
The killing will last 'till dead
