Sky clad dance  
The magick black  
As the ravens eyes tonight  
The unseen draped in darkness  
Spawn of the twilight  
Will join us in our circle and chant with us the runes  
To weave the spells of holy war  
Beneath the pale full moon

Blessed with wormwood visions  
Unfold now fore our eyes  
The secrets of the darkest arts  
Of death the grand devise  
Our book of shadows inked in blood  
Our goetia will reveal  
A path forbidden and by time  
Buried and concealed

Nightshade belladonna  
Adorn forgotten graves  
With your demonic beauty  
Bring us now  
The end of days

Awake now from your slumber  
From your dreamless sleep tonight  
By the gates of death you've waited  
We summon you now rise  
Three times six the crucifix  
Now broken and defiled  
The wonds inverted as Lords prayer  
Is recited heretic style  
Thirteen candles lit the bell chimes  
Now the time has come  
Thunder roars a cold wind blows  
The war has just begun

Devilry witches vile at work  
Sharpening the torture spells  
We scorch the heavens with the screams  
Of dying angels bound for hell

A black magick crazed apocalypse  
With a hellish roar ablaze  
The deathly words of the inferno mass  
Bring us now  
The end of days

Nightshade belladonna  
Adorn forgotten graves  
With your demonic beauty  
Bring us now  
The end of days
