Father, Father, Father, Father!
Nothing, only empty silence...

Noisy always have been here,
Palace full of Wizards and Mentors,
Father's voice resounds around,
But now sad silence I hear.

Father, Father, Father, Father!
Nothing, only empty silence...

Where is Raon? Where is Lykorian?
I'm confused, woeful, tired.
And someone's voice speaks to me,
Dire words, full of despair.

Father, Father, Father, Father!
Nothing, only empty silence...

Where from these words come?
And what does this all mean?
Why everybody disappeared?
Am I forever alone?

Father, Father, Father, Father!
Nothing, only empty silence...
