Let's hide away from everyone
and see them another day
'I didn't believe the signs', she said -
and that I should stay for everything
I didn't know you're loosing
I sing for the weak, and make me remember
everything

[Chorus]

And when you seem to never get there
Looking into the past
And when you don't believe the ending
even though it's always last
And when you feel you've been mistreated
and noone dares to make a sound, then you know
Where to go - I'll be around

And the more we live the more we die
Don't make it impossible
It's hard to see you when you cry
So tell me how to be
For what it's worth - I didn't know you're loosing
Seven days a week
So make me remember everything

[Chorus]

And when you seem to never get there
You're looking into the past
And when you don't believe the ending
even though it's always last
And when you feel you've been mistreated
and noone dares to make a sound, then you know
Where to go - I'll be around

But why - Did we never take it?
But why - Nothing more is fair
But why - Did we never make it?
But why - Did we never care?

[Chorus x2]
