Love is gentle as a rose,  
And love can conquer any war,  
It's time to take a stand,  
Brothers and sisters join hands

We got to let love rule,  
Let love rule

We got to let love rule,  
Let love rule

Love transcends all space and time,  
And love can make a little child smile,  
Can't you see this won't go wrong,  
But we got to be strong,  
We can't do it alone

We got to let love rule,  
Let love rule

We got to let love rule,  
Let love rule,

Oh brothers and sister, yeah,

We got to let love rule,  
Let love rule,

We got to let love rule,  
Let love rule
