Let him hold your gaze you will disappear
He can tell if you're mad and make you disappear
He misinterprets sex intended to protect him
He has ADD, his power over everyone
He can look into your brain
And tell whether or not you're a good person

See I was born with a demon's mind
an acid mind
And I was born with an angel's heart
a puppet's heart
See I was born with a demon's mind
an acid mind
And I was born with an angel's heart
a puppet's heart
a puppet's heart
a puppet's heart
a puppet's heart
a puppet's heart

He misinterprets sex intended to protect him
But let him hold your gaze and you will disappear
