# **"Christmas Party"**

Visit "[Christmas Party](#)" on [MotoLyrics.com](#)

All around the world  
People make a change  
Common and join the celebration  
All around the world  
People make a change  
It's time to have a christmas party

Peace on earth goodwill to everyone  
It isn't very hard to understand  
So get in to the groove of happiness  
You got no choice but to feel like all the rest

There's a new day dawning  
Something great is happening  
Everybody get down  
Funky little heaven nature sing

Repeat

Rejoice, rejoice, rejoice  
Coz now you have no choice  
We're free to do whatever we please  
Get up off our knees  
Now it's time to live all cares and worries behind  
Make it yours and mine  
At christmas time
