Gatekeeper, gatekeeper
Please let us in with her
Gatekeeper

I have been here
When this town was born
Secrets I own
To keep I have sworn
If you have none
Then go flee away
Bring me new tidings
And see me some other day

Hid my will, hid my will

Then they return
So soon from their quest
Lost boys of town
Came back with a guest
She was no druid
But if you incite
They have some stories to add
To bobo's delight

Tales so unordinary
Aliens look strange
We'll talk about yuletide
Graft and corruptions
Nuclear gifts exchange
Talk about crime, slime on the great vine
Now I am inclined to let you
Let you in with her
Coz I'm the gatekeeper

Gatekeeper, gatekeeper
You may come in with her
Gatekeeper
