Chorus:

I wish I could go back to those fairy book tales  
Forget the real world awhile  
And seek the sees of the talking whales  
A place of wishing wells and magic spells  
Where everything starts out once upon a time  
Long, long ago and ends happily ever after

1st stanza:

I could go up the hill and run with jill  
The giant could smell I'm no english man  
Cinderella dance with me at the ball  
I told the queen of hearts about my plan  
I traveled wonderland with alice  
I met with snow white in the woods  
I flew with peter pan in never, never land  
Picked some berries with ms. red riding hood

Repeat chorus

2nd stanza:

I could be an outlaw in the west  
Save the dancels in distress  
We could sleep a hundred years  
I could wake you up with a kiss  
We'll swim the seven seas  
We could make love more than twice  
Fly like dragons in the skies

3rd stanza:

We could hang around on trees  
Or buzz around like bees  
We could make some honey  
We don't need no money baby  
Just turn your back  
You'll see jumpin jelly beans sack  
Just wait for me jack  
I'll be back, I'll be back

Repeat chorus
