Lookin' in the papers makes me sorry to be human
A little ray of hope won't hurt at all
A price on every head and it's cheaper when you're
dead
The quality of life may have to fall

Muffled voices, world in action
Stir the peaceful, need for longing

I, I cannot describe the fear inside my heart
I, hereby do swear to live my life in accordance with
grace

Guess, it's human nature to be cruel and to be
heartless
That's no excuse to shoot him when he's down
Crawl in on your knees and then bite the hand that
feeds
The cages throw their shadows 'cross the ground

Where's the sense in senseless violence?
Hear the silence too forgiving

I cannot describe the fear inside my heart
I, hereby do swear to live my life in accordance with
grace
Praise, praise

Press your hands in to the pavement
Bathed in glory, here's your moment

I cannot describe the fear inside my heart
I cannot describe the fear inside my heart
I, hereby do swear to live my life in accordance with
grace
I, hereby do swear to live my life in accordance with
grace
