I guess, I'm into feeling higher lately
Higher than I've ever been in this thing called love
I guess, I'm into feeling higher lately
Higher than I've ever been in this thing called love

Higher than I've ever been in this thing called love

I guess, I'm into feeling higher lately
Higher than I've ever been in this thing called love

Higher than I've ever been in this thing called love
Higher than I've ever been in this thing called love
Higher than I've ever been in this thing called love
Higher than I've ever been in this thing called love
