"Stay With Me"

Tempered by greed, tall buildings breathe
Give a sigh of relief when it's night
Stirring from sleep, we night owls creep
Is there any sign of life under this stone
Star chime hollow & true.
Love, child

Weep for me & I will cast your wheels in motion
Walk with me the inner reaches of emotion

Sheltered by creed, one piled on one
Do you have a little room for one small one
Light shine wild & free
Sun, rise

Weep for me & I will set your wheels in motion
Keep with me & like a roller on the ocean
Stand by me & I will fill you with devotion
Walk with me the inner reaches of emotion

Weep for me & sands of time will fill the ocean
Keep with me 'til rays of sunshine fill the ocean
Walk with me the inner reaches of emotion
Stand with me & I will fill you with devotion

Weep for me the sands of time will fill the ocean
Keep with me & like a roller on the ocean
Stand by me & I will fill you with devotion
Walk with me the inner reaches of emotion
The sands of time will fill the ocean
Keep with me & rays of sunshine fill the ocean
Walk with me the inner reaches of emotion
