On your own, when it all goes wrong
Like you're in jail
Torn in two, threw the blame at you
Nightmare prevails

There is no guarantee
One crazy heart like me
Should I go, curl up and die?

Surreal
(Precious time is slipping away)
Reveal
(Don't go wishing your life away)

The wheel
(Of fortune keeps spinning on anyway)
A steal
(Precious time is running away)

One line folds and the next strikes gold
Finds me in jail
Tried to run, gotta buy me some
Free time and bail

There is no guarantee
Fool for a hangman's tree
Should I go, curl up and die?

Surreal
(Precious time is slipping away)
Reveal
(Don't go wishing your life away)

The wheel
(Of fortune keeps on spinning anyway)
A steal
(Precious time is running away)

There is no guarantee
One crazy fool like me
Should I go, curl up and die?

Surreal
(Precious time is slipping away)
Reveal
(Don't go wishing your life away)

The wheel
(Of fortune keeps spinning on anyway)
A steal
(Precious time is running away)
