Who needs love like that

There's something going on something not quite right
This are the stranger happening to me
There's someone at the door, I hear voices in my head
It seems things aren't the way they ought to be

Who needs love like that
Who needs love like that

It seemed so clear before, I held my point of view
I kept my conversation never changed
And now it's all gone wrong and words are kind of hard
And nothing else around me looks the same

Who needs love like that
Who needs love like that
Love can turn you upside-down and leave you cold
It's plain to see, you're losing all control

Who needs love like that
Who needs love like that

I'd like to understand, like to find out why
I can't remember all the lines that you said
But then I see your face and nothing really counts
Don't tell me now this feeling will stay

Who needs love like that
Who needs love like that
Love can turn you upside-down and leave you cold
It's plain to see, you're losing all control

Who needs love like that
Who needs love like that

Who needs love like that
Who needs love like that
Who needs love like that

...
