Deep at night  
Deep at night  
Deep at night

Cause I'm in love  
Can you feel me deep at night  
Run into your arms can't get away  
It's in my heart that I'm dreaming so deep at night  
Love you too hard till you scream my name

It's in my soul getting close can't sleep at night  
And nothings gonna bring us down  
So deep at night

Cause I'm in love  
Run into your arms can't get away  
It's in my heart that I'm dreaming so deep at night  
Love you too hard till you scream my name

It's in my soul getting close can't sleep at night  
And nothings gonna bring us down  
So deep at night  
So deep at night

Can you feel me deep  
Deep at night  
Can you feel me  
Deep at night  
Deep at night

My hearts flippin like a dime  
I'm over my head  
Can't get you off my mind  
Can't forget what you said  
I've been lookin at your body  
And it's making me sweat  
Time to make my move

Can you feel me deep at night  
Run into your arms can't get away  
It's in my heart that I'm dreaming so deep at night  
Love you too hard till you scream my name

It's in my soul getting close can't sleep at night  
And nothings gonna bring us down  
So deep at night  
Down so deep at night  
Down so deep at night  
Down so deep at night  
Down so deep at night

Can you feel me  
Cause I'm in love

I'll be the one to walk away  
Never walk away  
I will be the one to forget your name  
Never forget your name

Can you feel me  
Deep at night

We're running out of time  
It's getting close today  
Been searching for a sign  
That you're going my way  
Got my keys in hand  
And my cars outside  
I'll take you for a ride

Cause I'm in love  
Can you feel me deep at night  
Run into your arms can't get away  
It's in my heart that I'm dreaming so deep at night  
Love you too hard till you scream my name

It's in my soul getting close can't sleep at night  
And nothings gonna bring us down  
So deep at night  
Down so deep at night  
Down so deep at night  
Down so deep at night  
Down so deep at night  
Down so deep at night
