Knock knock knock knock who's there  
Knock knock knock knock who's there (Anybody)  
Knock knock knock knock who's there  
Who's there who's there who's there who's there  
(Anybody)

1 If you're wondering while you're knocking  
Why I ain't opening up  
I'm loving your best friend  
If you're wondering while you're knocking  
Why I ain't opening up  
I'm loving your best friend

If you wonder why I'm tripping  
Started off when we stopped talking  
Found myself in the corner drinking  
But the problem just won't go  
I distract myself with music  
But my ear drums just refused it  
So I dig into my wallet  
And I stare at your photo

When I think of all the time  
Candlelights, dinner and wine

You're the rib that's in my spine  
But you would not make no time  
So your girlfriend came around  
All those times that you left town  
Made me feel just like a king  
When she sat down on my crown  
(Anybody)

Repeat 1

Now it might seem kind of shady  
And it shoots like a 380  
Though I'm in another lady  
I'm still thinking 'bout my baby  
All the things we used to do  
When I used to call you Boo

It felt like we were in grade school  
But all those days are through  
(Anybody)

All those thoughts of going to the chapel  
It's like someone just burned my castle  
Paint the picture like Picasso  
But the image fades away  
Now for some it might be deep  
But I just received a beep  
So I called back anxiously  
She put her lover on the line

If you're wondering when you're calling  
Why I ain't calling you back  
She said I'm loving a new man (She said to me)  
If you're wondering when you're calling  
Why I ain't calling you back  
She said I'm lovin' a new man (She said that she had  
someone new)  
If you're wondering when you're calling  
Why I ain't calling you back  
She said I'm loving a new man (She said to me)  
If you're wondering when you're calling  
Why I ain't calling you back  
She said I'm loving a new man  
(Anybody)

Oh oh baby please  
You know this situation's buggin' me  
You got someone else and your girl's with me  
It's only so I can get by

Oh oh baby please  
You know this situation's buggin' me  
You got someone but and your girl's with me  
It's only so I can get by  
(Anybody)

Repeat 1
