Making Love--- Eric Benet

It feels unbelievable when my body's wrapped around  
you  
Forever could never be enough  
But it's not through physical  
When my soul is trying to reach you  
The heart is the way to making love  
Now I've come to understand  
Through a life of deeper meaning  
And wanting to love you even more  
The touch is divine but deeper inside  
You swear we should keep love alive  
Love has answered my call  
What has taken me....

\*REFRAIN\*

All of this time  
I've...been learning the way to  
Make love...right  
All my days and my nights  
All of my life...I  
Wanna spend it with you  
Making love

I want to lay you down  
On the bed of our emotions  
Embrace you with tenderness and truth (yes)  
I'll be inside of you  
With the strength of my devotion  
And cherish each moment shared with you  
One rhythm of life....body and mind  
Leaving this whole world behind  
In the heat of it all  
Only deeper we'll fall....

\*REFRAIN\*

BRIDGE

Love made every moment  
Every word we say

Love found in the pleasure in the pain  
For always  
Days fall by the second  
And the years will fade  
But I won't waste the time  
Cuz I'm giving you...

All of my life  
I...keep on learning new ways to  
Make love right  
And with all of my might  
Day and night  
I...wanna spend it with you  
Making love (making love)

All of this time  
I've... been learning (how to make)  
Love right  
Everyday and all of my life...I...  
I want to spend  
Making love... (fade/improv)
