feat. Faith Evans

Oh baby,

Oh baby

I'm missing you baby, oh

Sleigh bells are ringing somewhere in the distance

And I wonder just where you are

This fire side used to burn and glisten yeah

But it feels so cold when you're far, yes it does girl

I'm standing under the mistletoe

Remembering how you kissed me, oh baby

The gifts are under the tree but I know, I know

There's nothing there that I need

Uh nothing baby

I'm making a wish on stars above

So I can be with the one I love

Cause it don't feel like Christmas time without you

Snowflakes of hope are falling down,

And my heart beats but there's no sound

Cause it don't feel like Christmas time without you

I pray the angels watch over you, yeah, yes baby

Until you're back in my arms, uh, come on home

Say, I don't need no miracles, no, no

I just need you baby

And to be wherever you are, oh yeah

We got forever to celebrate,

And fill our live with good cheer, yes we do baby

I talked with Santa Clause cause I just can't wait

I'd do anything, I'd go anywhere,

To have you near, yeah,

I'm making a wish on stars above

So I can be with the one I love

Cause it don't feel like Christmas time without you

No it don't feel like Christmas

Snowflakes of hope are falling down,

And my heart beats but there's no sound

Cause it don't feel like Christmas time without you
It don't, it don't, it don't

I'm reaching out across this winter wonderland
Knowing you're reaching for me, yeah, yeah

Those Christmas lights will shine twice as brightly
Even though we're not together tonight, it's alright!

I'm making a wish on stars above
So I can be with the one I love
Cause it don't feel like Christmas time without you
No it don't feel like Christmas
Snowflakes of hope are falling down,
And my heart beats but there's no sound
Cause it don't feel like Christmas time without you
It don't, it don't, it don't.
