Whooo-oooh, yeah yeah!  
O-oh, baby  
Whooo

Now, ever since the day I saw you,  
There was one thing that I knew for sure  
That you was gonna be my lady  
When I didn't know, ye yeah  
Now, you was on the arm of someone,  
Annoyed that it wasn't me.  
I knew I have to pick my battles  
To gain my victory!

Oh, yeah  
That's why, I I I've waited so long  
I've waited, waited there  
Just hoping to see, oh hoping  
And that something you searched for  
Was me!  
(Something you searched for was me).  
Yeah!

It's funny how I came to love  
Before I even knew your name, ye-yeah  
And it's funny how that dude neglects you  
While I got this flame, uuh  
This burning flame.  
Now, can't nobody see the future  
I sure can't see my future without you,  
It's so much love I can not wait to show you,  
I I I'm just waitin' on you, oh oh  
Waitin' for you.

I've waited for so long  
Get praying to see you  
Now, that someone you've searched for was me.  
I've waited, waited there  
Just hoping to see, oh hoping  
And that something you searched for  
Was me! Uhh!

I've been waitin'!

I've got a house, straight up the magazine  
Only thing it's missing, need a queen.  
I got a power breaker... spin on you  
Just pack your shit gitl, and move on in!  
I've waited for so long  
Get praying to see you  
Now, that someone you've searched for was me.  
Can it be mw [?]  
I've waited for so long  
Get praying to see you  
Now, that someone you've searched for was someone  
like me.

Praying, waitin' hoping in!  
Who-oh-oh!  
Waitin' waitin'  
You're what's missing in my life  
I'm not gonna give up this fight!  
Waitin' waitin'  
I got what you've been searching for!  
Waitin' until you see, how perfect together we be girl!  
Waitin' waitin'  
I'm right here, waitin' waitin'  
O-o-oh.  
Waitin' for you!  
Waitin'!
