Ohh yeahh
I'm going back to the day we parted
And all the ways you were broken hearted
I take a trip everyday in my mind

I see your face I recorded of you
It's playing back like a broken record
I remember every tear in your eyes

(If I knew what I know) I'd walk back in time
(I would right every wrong) Ooo I would change every
line
(Then you'll be here right now) Just like yesterday
(But you'll feel no more doubt) When you hear me say

Chorus
You're the only one I want
(You're the only one yeah)
You're the only one I need in my life (In my life baby)
You're the only one I love (I love you, I love you, I love
you)
You're the only one I need in my life (Ohh yeahh)

I see the world through a haze of memories
And other girls don't mean a damn thing to me
It's kinda sad how they just don't compare (Don't
compare baby) Hmmm

Time will tell let's wait and see
If the love we had was meant to be (Cause I know we've
got a future out there)
Cause you're still my girl (I don't care what they say)
Let's go back to our world (Baby don't you throw this
love away)
Cause I still believe (In the magic of us)
It's just a matter of time
(And it's a matter of trust)

Chorus
You're the only one I want (wannnttt)
You're the only one (Yeahh) I need in my life (Yeah

yeah)
You're the only one I love (You're the only one, the only
one)
You're the only one I need in my life (I don't need
nobody else)

Now girl it took sometime
To get real with myself
(Badi di badi da badi da Ooo)
Now love ain't easy sometimes
But when you find it you'll stay to-ge-ther

Chorus
You're the only one I want
(only one, you the only one)
You're the only one I need in my life (Hey-yeah yeah
baby)
You're the only one I love (What's it gonna be baby
what's it gonna be baby)
You're the only one I need in my life (Whoaaa oh yeah)
You're the only one I want (You're the only only only one
yeah)
You're the only one I need in my life (Nobody but you
baby, nobody but you baby)
You're the only one I love (Ohhh Ohhh)
You're the only one I need in my life (I need your love, I
want you baby)
You're the only one I want (Ohh yeah)
You're the only one I need in my life (Don't you know
don't you know I love you girl)
You're the only one I love (Yeahhh I need you baby)
You're the only one I need in my life(Oh How I need
you-oo)
You're the only one I want
