

Eric Bibb "A Ship Called Love"

Visit "[A Ship Called Love](#)" on MotoLyrics.com

We'll there's a ship, called love, gettin' ready to sail.
People I know you know it's time, to get on board.
By the stars up above, we'll steer through storm and
gale.
And by the grace of god, we'll land, on that peaceful
shore

We need every hand on deck.
You know the seas are gonna get rough.
But love's the right stuff, to get us over.

We'll there's a place, for everyone.
No matter what grace of creed.
Might have to leave our possessions behind, travel light.

No need to push, no need to shove, because we're all a
family.
Brothers and sisters help each other, it's gonna be
alright.

We need every hand on deck.
You know the seas are gonna get rough.
But love's the right stuff, oh yes it is, to get us over.

And We need every faithful heart
Otherwise, we'll [take it?]
Love the only ship, that can make it across

Ooohhh oooh oh...

We need every hand on deck.
You know the seas are gonna get rough.
But love's the right stuff, to get us over.

We'll there's a ship, called love, gettin' ready to sail.
And people I know you know it's time, to get on board.
Yes I know you know it's time.
I know you know it's time, to get on board.
