If I had a dollar for every mile
I've travelled from town to town
I could live like a saultan or a king

But then again
Don't it make you smile
Thinking about the good friends you've found

All because, just because
You have a song to sing.

So sing your song
So that we remember
All the good times that we've had
One little song
We can lean on
When the world turns sad

And when there's no-where
left to run to
Times are looking bad
Sing your song
So we remember
All the good times that we've had

If I had a penny
For every song
I've sung for all the lovely girls
I'd have a mountain
Of copper so high
Though I've been on the road so long
Sweet music keeps me strong
So I'll just keep on singing, keep on singing
All over this world

Sing your song
So that we remember
All the good times that we've had

One little song
We can lean on
When the world turns sad

And when there's no-where
Left to run to
Times are looking bad
Sing your song
So we remember
All the good times that we've had

Good times
Sweetness
We've been sipping ____ wine (please help me
here)
And when your sad
Count your blessings
You've got yours
I've got mine

(whistling instrumental)

And when there's no-where
Left to run to
Times are looking bad
Sing your song
So we remember
All the good times we've had

Sing your song
So that we remember
All the good times we've had

A little song
We can lean on
When the world turns sad

And when there's no-where
Left to run to
Times are looking bad
Sing your song
So we remember
All the good times we've had

Sing your song.....
Sing your song.....
