I was flexin', anticipating
I was wondering what I could say
I was driving around, around in circles
It's a miracle I stayed away, oh baby

All I want to do is hold you tight
(Hold you tight)
Would you object if I called you mine?
(Called you mine)
Did you hear me right?
I'll do you no wrong
And baby no frettin' I just suggest we get it on

I was flexin', anticipating
I was wondering what I could say
I was driving around, around in circles
It's a miracle I stayed away, oh

It's summer time, you're so fly
You and me, it could be
(Summer time, you're so fly
You and me, it could be)

I was flexin', chillin' on my own
But now I'm all geared up and ready to play
She was walking around, around in circles
It's a miracle I stayed away, oh baby

All I want to do is hold you tight
(Hold you tight)
Would you object if I called you mine?
(Called you mine)
Did you hear me right?
I'll do you no wrong
And baby, no frettin' I just suggest we get it on

I was flexin', anticipating
(Baby)
I was wondering what I could say
(What I could say)
I was driving around, around in circles
(Around, in circles)

It's a miracle I stayed away, oh

It's summer time, you're so fly
You and me, it could be
(Summer time, you're so fly
You and me, it could be)

It's summer time, you're so fly
You and me, it could be
(Summer time, you're so fly
You and me, it could be)

It's summertime, you're so fly
You and me, it could be
(It's summer time, you're so fly
You and me, it could be)

I was flexin', anticipating
I was wondering what I could say
(What I could say, yeah, yeah)
I was driving around, around in circles
(Around, yeah, yeah)
It's a miracle I stayed away
(Why do I stayed away)

I was flexin', anticipating
(Summer time, you're so fly)
I was wondering what I could say
(What I could say)
I was driving around, around in circles
(Summer time, you're so fly)
It's a miracle I stayed away
(I stayed away)
(Summer time, you're so fly)

Its summer time
(Summer time, flexin')
It's summer time, you're so fly
You and me, it could be
(Summer time, your so fly
You and me, it could be)
That's right
